Fullstack Developer

Fullstack Developer specialized in React, React Native, and Node.js, focused on building scalable web and mobile applications. Experienced in developing end-to-end solutions, including frontend interfaces, backend services, authentication, and database management using TypeScript and Supabase. Background in the MERN stack (MongoDB, Express, React, Node.js), with the ability to adapt to different environments and architectures. Bringing 15+ years of experience in business operations, with a strong understanding of real-world processes and problem-solving. Currently seeking a Fullstack or Frontend Developer role to grow and contribute to impactful projects
